Your future outlook

The figures below are based on your chosen pension date of **5 December 2040**. They're shown in today's prices, not guaranteed and are just an example.

We estimate your plan could be worth
£450,000

Giving you an annual income of
£24,000

Or a monthly income of
£2,000

We've made the following assumptions:

- Illustration date is **30 April 2023** and future inflation will be **2.5% each year**.
- The value of your investments will grow by **0.1% each year**. The growth rate is based on your current investment choice and could change in the future.
- Your contributions and your employer's contributions will increase each year in line with salary. We've assumed your salary will increase by **2.5% each year**. The salary we hold for you can be found by logging in to online service. If it needs updated then let your employer know.
- Regular contributions will continue until the earlier of your chosen pension date or your 75th birthday.
- The charges on future regular contributions will be the same as on your existing regular contributions.

Retirement assumptions:

- You'll use all of your projected plan value to provide a pension income.
- You'll use your pension savings to buy a secure income - also known as an 'annuity'. The cost of buying a secure income could change in the future and will depend on the rates that apply at the time.
- Your pension income will be for a single life and remain at the same level.
- Your pension income will be paid for a minimum of 5 years and thereafter for the rest of your life.
